THE NEW TWIN CITIES

Hiawathas

Ride the Milwaukee Road to Milwaukee when you come to the UAPA convention in September. The cars of these smooth-riding trains are designed and built here in Milwaukee in the sprawling 35th Street yards. This railroad, which spans the western half of the continent from Chicago to the Pacific Northwest, is Milwaukee's contribution to fast and efficient transportation. The folder describes the latest addition to the famous fleet of maroon and orange Hiawathas.
